Guryaha iyo Nadaafadooda.

Akhri sheekadan kadib ka jawaab weydiimaha ka dambeeya

Dadku guryaha waxa uu u dhistaa in uu ku nasto, seexdo, waxa kale ee uu dadku guryaha u dhistaa in uu kaga badbaado oo ka magan galo waxyaabaha noloshiisa waxyeelada u geysanaya ee dhibaataynaya, kuwaasoo ay ka mid yihiin, dabaysha, kulka, qabawga, bahalaha iyo waxyaabo kale oo khatar galin kara nolosha dadka.

Miyi iyo magaalo waxa uu dadku leeyahay guryo uu u hoydo, dhigtana alaabo tiro badan oo wax ku qabsado.

Alaabta guryaha magaalada la dhigto way fara badan tahay waxaana ka mida ah; sariiro, furaashyo, miisas, darmooyin, jalxado iyo qaar kale oo badan.

Waxa jirta in ay xagga dhismaha ku kala duwan yihiin. Kuwa miyiga waxa laga sameeyaa cawska iyo geedaha dhulka ka baxa, waxaana loo yaqaan Aqal-Soomaali waxaanu ka kooban yahay Harraro, kabdo, Dhigo iyo Udbo. Halka kuwa magaaladana dhismahoodu kala duwan yahay qaarkood waxa laga sameeyaa dhoobo sida; Mundulka iyo Cariishyada qaarna loox baa laga sameeya sida sandaqadaha, qaa rkalena waxa laga dhisaa dhagax waana ka adkeysiga badan.

Guryaha Magaaladu waxay ka kooban yihiin qolal badan, sida: qolka Cuntada, qolka hurdadda, qolka fadhiga iyo akhriska, qolka cunto karinta iyo musqulo. Qol kastaa waxa uu leeyahay daaqado waaweyn oo gees walba u jeeda oo loogu talogalay in qorraxda iyo neecawduba si fiican uga soo galaan.

Haddaba, mar haddii ay yihiin guryahu meesha dadku waqtigiisa inta badan uu ku qaato, waxa haboon in laga ilaaliyo oo lagu dadaalo nadaafaddiisa, oo aan qashin lagu arag guryaha agtoodana lagu beeraa geedo hadh iyo bilicba u soojiida guriga, waayeelka iyo caruurtuna ay hadhsadaan xilliyada qaarkood.

Waliba waxa haboon in guryaha laga ilaaliyo cayayaanka cuduradda keena sida: diqsiga iyo kaneecada.
